## COACHING PROGRAMS AVAILABLE

Anouk Guelidi is pleased to offer her teaching services to students that are looking for performance. Her instruction is not a method, but a model that considers the student’s skill level, their goals, their physical capabilities, their equipment and their reasons why they participate in this activity.

Anouk’s overall goal is to improve the performance of the student. In doing so, she provides the student with the latest teaching technologies, like K-Vest or V1 Professional video golf analysis. This ability, which is used by elite tour players and coaches, provides a high-level of information and visual feedback to assist the student in understanding the techniques being conveyed.
